

org.mnu.controller.Member  
Controller.updateForm

org.mnu.controller.Member  
Controller.view

org.mnu.service.MemberService.view

```
graph LR; A["org.mnu.controller.MemberController.updateForm"] --> C["org.mnu.service.MemberService.view"]; B["org.mnu.controller.MemberController.view"] --> C;
```

The diagram illustrates a dependency or call relationship. Two boxes on the left represent methods from the `org.mnu.controller.MemberController` class: `updateForm` and `view`. Two blue arrows originate from these boxes and point to a single box on the right, which represents the `view` method of the `org.mnu.service.MemberService` class. The target box has a gray background, while the source boxes are white.
